

Primary PE Schemes of Work

Our Schemes of Work provide a structured approach to progressive PE from Early Years Foundation Stage (EYFS) to Year 6 through a framework of learning objectives linked to a range of physical activities. They seek to ensure that all primary school pupils enjoy a high quality PE curriculum which inspires them to actively take part and progress in a range of physical activities embedding a desire to be active and healthy for life. Our Units of Work and accompanying training and development programmes will support teachers to have the confidence, knowledge and resources they need to deliver a range of PE lessons which inspire all of their children. They have proven to be a real asset to the PE Coordinator to support them as they organise the PE Curriculum to ensure it is well structured and planned across the whole school.

The Schemes of Work will to structure and plan PE across all areas (Gym, Athletics, Games and Dance) and through all year groups (EYFS – Year 6) ensuring lessons are active and progressive and teachers are able to effectively assess progress across all areas (social, cognitive and physical).

Units of Work

The Units of Work are linked to the former QCA Schemes of Work and are intended as a guide to support those teachers who are not as experienced or confident in delivering PE lessons.

Each Unit has an overall learning objective and holistic assessment criteria and includes 6 session plans. Each session plan includes the sessional learning objective/s, activity ideas, teaching points, vocabulary, differentiation, resources and potential questions. The activity ideas are designed to meet the 2014 National Curriculum for PE and encourage children to be active throughout the session using games as a method for learning where possible. The learning objectives and content in each Unit of Work are by no means exhaustive and may require amending to suit the needs of your students, and the facilities and resources within your school.

The Units have been developed by the London Borough of Merton's teachers and the School Sport Partnership with support from local sports coaches and specialists, and with guidance from St Mary's University, London. Please be advised that our Schemes of Work have been written by experienced teachers and sports specialists but have not been endorsed by any National Governing Bodies.

Testimonial

'This is an excellent resource for teaching P.E. and has many attractive and helpful features:

- *A simple format for all year groups and topic blocks which cover the year*
- *Tips for teaching and learning*
- *Simple illustrations to explain the format of games*
- *Suggestions for differentiation - often a weakness in lessons*
- *Questions for children so they can demonstrate learning*
- *Gold, silver and bronze awards as simple assessments. Bronze is below the expected level but children would be proud of this and have the incentive of gaining silver*

I am sure that schools would find this scheme ideal, either as a core to ensure the full coverage of PE in the curriculum or as an edition to their existing scheme of work.'

Roger Easthope, OBE (For services to education and school sport)
Former Head Teacher and current school's inspector

Prices

The Schemes of Work are available now for Schools to purchase. The cost includes the physical folder with all content as well as online access for each class teacher, a member of SLT and the PE Coordinator. The first year online access and set up charge is included in the price. If schools wish to continue to subscribe to the online access there is an annual charge from the second year onwards as listed below (this may be subject to a slight change year on year).

To purchase the Schemes you will need to complete our application form (available to download online) and email this to us at info@mertonssp.org.uk. Orders can take up to 2 weeks to purchase during term time.
